organization in 1976. Seventy years of collecting has  
made MP+D a prominent living record of the history of  
the performing arts in the Bay Area and  
beyond. Museum of Performance +  
Design Performance-Based Building Design is an  
approach to the design of any complexity of building,  
from single-detached homes up to and including high-  
rise apartments and office buildings. A building  
constructed in this way is required to meet certain  
measurable or predictable performance requirements,  
such as energy efficiency or seismic load, without a  
specific prescribed method by which to attain those  
requirements. This is in contrast to traditional  
prescribed building codes, which mandate
